

SUNSMART AND EXTREME HEAT POLICY

PURPOSE

The purpose of this policy is to encourage behaviours at Clifton Hill Primary School to minimise the risk of skin and eye damage and skin cancer.

This policy provides guidelines to:

- support staff and students to use a combination of sun protection measures when UV index levels are 3 or above (generally mid-August – end of April)
- ensure that there are outdoor environments that provide adequate shade for students and staff
- ensure students are encouraged and supported to develop independent sun protection skills to help them to be responsible for their own protection
- support our school's strategies to meet its duty of care and occupational health and safety obligations to minimise harmful UV exposure and associated harm for students and staff.

SCOPE

This policy applies to all school activities, including camps and excursions. It is applicable to all students and staff.

POLICY

Excessive exposure to the sun's ultraviolet (UV) radiation can cause health problems including sunburn, damage to skin and eyes, and an increased risk of skin cancer.

UV radiation:

- cannot be seen or felt
- can be reflected off surfaces such as buildings, asphalt, concrete, water, sand and snow
- can pass through light clouds
- varies in intensity across the year (highest in Victoria from mid-August – end of April)
- peaks during school hours

Sun safety is a shared responsibility and staff, parents and students are encouraged to implement a combination of sun protection measures whenever UV levels reach 3 and above (typically from mid-August to the end of April in Victoria). Information about the daily local sun protection times is available via the free SunSmart app or at sunsmart.com.au.

Clifton Hill Primary School has the following measures in place to help reduce the risk of excessive UV sun exposure for staff and students:

Shade

Clifton Hill Primary School will provide sufficient options for shelter and trees to provide shade on school grounds, particularly in places such as:

- areas where students eat their snack and lunch
- playgrounds
- popular play areas

When building works or grounds maintenance is conducted at Clifton Hill Primary School that may impact on the level of shading available to staff and students, a review of the shaded areas available will be conducted and further shading installed as appropriate.

Sun protective uniform/clothing

Clifton Hill Primary School recommends that from mid-August to end of April, and whenever UV levels reach 3 and above, students come to school wearing sun-protective clothing such as:

- loose, cool, closely-woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts and skirts
- rash vests or t-shirts for outdoor swimming activities.

Clifton Hill Primary School offers an optional school uniform that is sun protective.

From mid-August (exact date to be set by the school annually) to 30 April, all students **must** wear a sun protective hat that shades the face, neck and ears for all outdoor activities. Hats must be a broad brimmed, legionnaire or bucket style. Hats may also be worn for all outdoor activities outside of the August to April time period, by parent or student choice.

- Students who are not wearing appropriate protective clothing or a hat may be asked to play in the shade or in a suitable area protected from the sun.

Sunscreen

Clifton Hill Primary School encourages **all staff and students** to apply SPF30 (or higher) broad-spectrum, water-resistant sunscreen daily whenever UV levels reach 3 and above. Sunscreen should be applied at least 20 minutes before going outdoors, and reapplied every two hours according to [manufacturer's instructions](#).

Excellence in Education

185 GOLD STREET CLIFTON HILL VICTORIA 3068 AUSTRALIA
T 03 9489 8333 F 03 9481 1910 clifton.hill.ps@edumail.vic.gov.au

Staff and students who may suffer from allergic reactions from certain types of sunscreen are encouraged to contact their classroom teacher to implement a management plan to reduce the risk of an allergic reaction at school.

Staff and families should role model SunSmart behaviour and are encouraged to apply SPF 30 (or higher) broad-spectrum, water-resistant sunscreen when outside.

Sunglasses

Where practical Clifton Hill Primary School encourages staff engaged in outdoor activities to wear close-fitting, wrap-around sunglasses that meet the Australian Standard 1067 (Sunglasses: Category 2, 3 or 4) and cover as much of the eye area as possible.

Curriculum

Students at our school are encouraged to make healthy choices, and are supported to understand the benefits and risks of sun exposure. Clifton Hill Primary School will address sun and UV safety education as part of the integrated curriculum.

Staff are encouraged to access resources, tools, and professional learning to enhance their knowledge and capacity to promote sun smart behaviour across the school community.

Engaging students, staff and families

SunSmart behaviour is regularly reinforced and promoted to the whole school community through newsletters, school website, staff and parent meetings, school assemblies, student and teacher activities and at student enrolment/new staff orientation.

Staff and families are encouraged to model sun-smart behaviours when they are outdoors by using a combination of protective clothing, hats, sunscreen and sunglasses.

Extreme Heat

In the event of the Principal or nominee determining that the temperature has exceeded 36 degrees students will be supervised in classrooms during recess and lunch breaks.

Teachers will proactively provide regular additional breaks for students to access their water bottles.
